SUNSARA, Hedwig's

OPEN EVENT

Creator of progressive and deep sound in the climate of deep organic and afro house. Under this pseudonym Mila Glückspilz, a talented woman from Lubin in Lower Silesia. An artistic soul; she plays, creates, paints, and above all has an incredible gift of creating a magical aura, caressing the senses with the soothing sound of warm oriental music. Her soul of a music lover led her to the Warsaw club scene in 2019. Since then, she has been developing as a DJ and producer. Mila perfectly finds herself in the house genre, and in particular in these "sunny" varieties. Her performances are saturated with passion and fill the heart with the power of good vibrations. She collaborates with violinist Ewelina Krupa creating magical performances in the rhythm of Deep Organic. In August she performed at the Niebo club (Warsaw) supporting the Klangphonics band and telling a beautiful musical story in a melodic techno/electronic atmosphere, and in September on the day stage Sadzimy Techno Las (Institute), showing thus that music has more than one name, and what counts is good energy. Join her musical space!
